## REPORT OF THE SCHOOL BOARD.

---

### *To the Citizens of Stoddard:*

The task of providing equal school privileges for all the children of the district seems to become more difficult with the succeeding years. As the population grows smaller, there is not a corresponding decrease in the duties of the school board, but rather the responsibilities are greater, particularly in the matter of providing educational facilities in those parts of the town where schoolhouses have gone to ruin for lack of pupils to maintain a school, and where distance is too great an obstacle to be overcome by transportation of the few living in those sections, to a school. George E. Reed's two children were sent to Marlow as usual, but there being no school that Mr. Swett's children could be sent to, the school board after careful inquiry and consideration, decided to hire Miss Amy B. Howard to teach them at her home in Sullivan. The expense attending this was of much concern, but this seemed to offer the only means of providing for these children, and for two or three others that were at the steam mills.

The matter of paying for the conveyance of pupils, having been the cause of some dissatisfaction in the past, the school board early in the year began to study into the practice in some towns of paying mileage, and after becoming impressed with the justice of the idea, decided to adopt the plan, and fixed upon three cents per mile each way to all who live over one and one-half miles from a school, paying only for the distance that exceeded a mile and a half, and no distance less than one-fourth of a mile to be

considered. The mileage was paid on a basis of actual attendance as shown by the registers. The treasurer's report will show the amount paid out for this item.

Our schools are not as long as they ought to be, and the main trouble here is because of a falling off in attendance as soon as the weather and traveling get bad. One school in town was obliged to close two weeks before it was intended to close it because no pupils appeared at the schoolhouse for two days, after a snow storm, although the teacher made her way there without great difficulty. Some concentrated and individual effort must be made to get the scholars to school if we are to have longer and better schools. It is very unsatisfactory to the teacher and the school board to try and continue a school when the attendance has dropped off one-half or more.

We believe it would be a great gain for the schools if the district could be in a supervisory district under the direction of a superintendent. There are many arguments in favor of this which we will not take the space to speak of here, but some of them will be presented at the school meeting.

We recommend that money be raised for shingling one side of the schoolhouse at South Stoddard. Only slight repairs will be needed in any other direction.

George F. Reed was appointed agent to enumerate the school children, and reported twenty-nine boys and thirty-one girls between the ages of five and fifteen years.

The report of the schools in detail is as follows:

#### SCHOOL NO. 1—(CENTRE).

Both terms were taught by Mrs. Maud A. Page of this town with the same painstaking effort that has characterized her previous efforts as a teacher. A teacher's influence counts for a great deal, but it cannot overcome, only in a small degree, the home influence if it is wrong or vicious. If a child is allowed to smoke, swear or use vulgar language at home, it will show itself around the

school, if not permitted in the presence of the teacher. The spring term consisted of ten weeks. Whole number of pupils attending 23. All studied reading, writing and spelling and vocal music, 19 arithmetic, 9 geography, grammar and composition, 7 physiology and 5 history. Number of visits by school board 4, by citizens and others 33. Not absent or tardy 4. Number of cases of tardiness 3. Wages of teacher per month \$31.

The fall term was 12 weeks. Number of pupils enrolled 22. All studied reading, spelling, writing, and arithmetic, 11 geography, grammar and composition, 7 physiology and 5 history. Visits by school board 3, by parents and others 19. On roll of perfect attendance 5. Cases of tardiness 1. Wages of teacher per month \$30.

#### SCHOOL NO. 2 (WEST STODDARD).

This school was taught by Miss Sara E. Phelps of Marlow, the entire school year. Miss Phelps is an experienced teacher and proved herself very efficient. The spring term consisted of ten weeks. Number of pupils 8. All studied reading, writing, spelling, arithmetic, geography, physiology and drawing, and 4 grammar. Visits by school board 5, number neither absent or tardy 3, cases of tardiness 6. Wages of teacher per month \$22.

The fall term was brought to a sudden close by a snow storm two weeks before it was planned to end it so that there was only 10 weeks. Whole number of pupils attending 7. All studied reading, spelling, writing, geography, grammar, physiology and drawing. Visits by school board 2. By others 5. Cases of tardiness 2. On roll of honor, none. Wages of teacher per month \$22.

#### SCHOOL NO. 3—(SOUTH STODDARD).

Miss Andrina L. Thompson of Brookline, Mass., was secured for the entire school year, for this school, and by her pleasant manners, refining influence, and untiring efforts made a good school and won the confidence of the com-

munity. It was with much regret by all that Miss Thompson felt obliged to give up the school, on account of ill health, two weeks before the allotted time.

The spring term was 9 weeks in length. Whole number of pupils attending 23. All studied reading and writing, 20 spelling and arithmetic, 19 composition, 13 physiology, 12 geography, 5 grammar and 2 history. Visits by school board 3, by citizens and others 58. Number not absent or tardy 7. Instances of tardiness 10. Wages of teacher \$31 per month.

The fall term closed at the end of 10 weeks. Whole number of pupils registered 26. All studied reading, 20 arithmetic, 19 spelling and writing, 12 geography, composition and physiology, 2 grammar, history, algebra and bookkeeping. Visits by school board 4, by others 31. Instances of tardiness 32. On roll of perfect attendance 1. Wages of teacher per month \$31.
